## PAKISTAN Celebrates World Oral Health Day 2011

Organized By:

World Oral Health celebrated throughout the world was also observed first time in the mega cities of Pakistan . Organizers and the Sponsors put in their whole-hearted efforts to accomplish this event, and took several months of labourious job to work out an elaborate plan to make it a huge success.

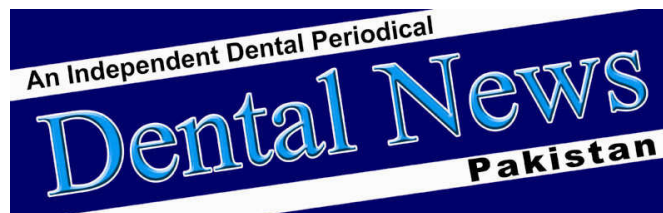

College and Hospitals were included to support this cause which made it worthwhile as patients benefitted tremendously. Activities of oral health day started a day earlier in Karachi-the city of lights, with shopping malls getting cramped because of the widespread public interest in the event. Colleges organized different activities, under the banner of World Oral Health Day. Poster competitions, Presentations, T.Vc , Hoardings, Free Dental Camps, Instruction on Oral Health, walk-a-cause and the most attractive of all free samples were some of the activities organized to mark the day.
